

Import Marian Calendar into iPhone/iPad

You can set up an automatic feed of Marian Calendar events into your native iPhone/iPad calendar. Please note that these events will be **read-only** in your device's calendar application.

To set up an iCal feed from the Marian Calendar into your iPhone/iPad,

1. On the device, Go to Settings -> "Mail, Contacts, Calendars," -> Tap "Add Account"
2. Choose "Other" -> Under the Calendar Section choose "Add Subscribed Calendar"
3. Enter the Marian Calendar's iCal url (below) in the server field for the subscribed calendar option, leaving all other credentials as default:

http://www.calendarwiz.com/CalendarWiz_iCal.php?crd=marianuniversity

4. Tap "Next" to verify the account -> Tap "Save"

The events will automatically feed into the iPhone/iPad's native calendar.
