

Policy Name: Campus Security

Marian University Campus Security

Originated Date: September 1, 2008

Review Date: 12/03/2015

Revised Date: 12/03/2015

Policy Statement:

Marian University takes campus security very seriously. The cooperation, involvement, and personal support of all members of the Marian University community are crucial to the success of a campus security program. The campus is well lit at night and equipped with security poles throughout campus for emergency purposes. Marian University Campus Safety and Security is located in the Hornung Student Center and is open 24/7. Marian University One-Stop, an Information Desk located in the lobby of the Administration Building, is open 6:00 a.m. to midnight, seven days a week allowing members of the Marian community to access a campus escort to walk them to their vehicle or building. Closed on days the university is closed; i.e. holidays and inclement weather. A security desk in the Naber Hall lobby monitors traffic into that building from 7:00 p.m. to 3:00 a.m. Monday-Thursday, with extended hours on the weekend. If you have to work on campus at night or on the weekend, please turn on lights in your office and take normal precautions for your personal safety. Please keep your office area locked when you leave for the day to protect University computers and equipment. Do not allow anyone unknown to you access to a building that is locked. Campus Security is responsible for opening buildings that are being used for classes on the weekend.

Campus Security personnel can be reached on campus at extension 8950 or call Marian One-Stop at extension 8555.
